APPLY to UNC Asheville by contacting the Admissions Office at 1-800-531-9842. To be formally admitted into the UNC Asheville Teacher Education Program, students must:

- have earned at least a 2.5 cumulative grade point average in undergraduate coursework;
- have achieved a grade of “C” or better in all Education courses, PSYC 319, and MATH 211 & 215 (if completing K-6 licensure);
- have received acceptable scores established by the North Carolina Department of Public Instruction on the SAT or ACT, or Praxis I Pre-Professional Skills Test (PPST), as required;
- have satisfactory evaluations on professional dispositions and on each of the abilities/characteristics listed on the Department’s Requirements for Licensure contract.

THE MISSION of the Department of Education is to prepare candidates for a North Carolina Standard Professional I Teaching License with a liberal arts foundation. The Department of Education prepares highly qualified teachers who will contribute to the teaching profession and positively impact students in the public school system. Teachers who complete our program have broad perspective; think critically, reflectively and creatively; are humane and committed to meeting the learning needs of all students; and guide students using active inquiry to become effective and productive citizens in the 21st century.

PROGRAM OVERVIEW

For the undergraduate or transfer student, the teacher licensure program provides an opportunity to pursue a content major while attaining a license to teach. Students fulfill the course expectations of their chosen major and the coursework provided by the Department of Education (listed on the back). The department also offers post-baccalaureate opportunities for individuals who already hold a bachelor’s degree or higher and desire an initial North Carolina Standard Professional I Teaching License, licensure in another area of teaching, or licensure renewal credits.

STUDENT GOALS

- Demonstrate knowledge of the depth, breadth, and interdisciplinary connections inherent in the specialty area discipline studied.
- Apply state and national standards, research-verified best practices, critical thinking, clear and thoughtful communication, creative expression, and honest open inquiry in designing, implementing, differentiating, assessing, and reflecting on effective pedagogy.
- Demonstrate professional dispositions in varied educational settings with regard to a diversity of students and all members of the school community.

The teacher licensure program in secondary Mathematics is designed to prepare well-informed, creative, resourceful, and caring teachers who help students with a wide range of ability levels and from various socioeconomic backgrounds understand and learn mathematics. The program helps prospective teachers identify objectives, materials, activities, methods, and assessment procedures appropriate to the cognitive development, grade interests, and the needs of their students. Graduates of the program learn to motivate students to learn mathematics by using a variety of teaching methods and strategies, using technology efficiently and appropriately, designing classroom instruction, conducting classroom research, and staying informed of curricular reforms in mathematics education.
